2. I have read the guidelines for Research Training Fellowship applications [Yes/No](#)

3. Title of project (maximum 25 words)

Example title of project

4. Briefly describe the aims of this project using non-technical terminology and describe how this project fits the remit of Action Medical Research. Describe the clinical relevance of this project and say how close it is to clinical application (maximum 300 words)

Example aims of the project

5. Briefly describe the training in research methods which you will receive during the fellowship (maximum 200 words)

Example description of the training in research methods

6. Outline your proposed research plan (maximum 500 words). You should describe the hypothesis to be tested and the methods of research to be used. The study design should be described in sufficient detail for our advisors to understand what is proposed.

Example description of the proposed research plan

7. If this is a clinical study, and if appropriate, have you approached, or do you plan to approach, the relevant Clinical Research Network Clinical Studies Group to help with the design of this study?

Maximum 200 words

Example Clinical Studies Group answer

8. Patient/public involvement

Maximum circa 70 words. If appropriate please state if you have involved or plan to involve patients or members of the public in the research process eg, involvement in the choice of research topics, advising on project design or in carrying out the research. This is different to carrying out research on patients or disseminating findings. It involves working with patients or the public rather than doing research on, to or for them.
